

New User Account

If you agree to the following guidelines, please fill out the form below and sign.

I understand that:

- GIF personnel may fully or partially close the Facility due to workshops and events without advanced notice.
- I may NOT use the Facility for any personal or business practice; all Facility use must be related to a UC project, or a GIF partner-related project.
- Data stored on workstation is not private, and can potentially be deleted by other users accidentally.
- GIF personnel periodically delete all user data from every workstation Mulford, and that I should always back-up my files on a USB flash drive or external hard drive.
- I can store up to 1 GB of files on the server (the Z:\ drive), but only to store and retrieve data, *NOT* to work directly from.
- As a courtesy, I may acknowledge the GIF in any publications that have benefited from our support and services. We suggest: *This research benefited from the support and services of UC Berkeley's Geospatial Innovation Facility (GIF), gif.berkeley.edu.*

Name: _____ Email: _____

Major/Department: _____ Calnet ID: _____

Advisor/Lab (if applicable): _____

UCB Status (check): Undergrad Graduate Postdoc Faculty Researcher

Desired Username: _____ (Note: it will be preceded with !)

Email Lists (Please check if you would like to be included):

GIF-USERS – Updates on GIF workspace closures and forward announcements for job and internship opportunities specific to our users

GIF-COMMUNITY – Announcements related to GIF's workshops, meetings, and events
